Will He Get a New Trial for Poisoning Mrs. Barnaby?

Briefs Submitted to the Colorado Supreme Court.

Twenty-four errors in the record claimed by the counsel for Plaintiff in Error, but he relies only upon six. The decision is expected soon.

DENVER, Col., July 29.—Atty-Gen. Joseph U. Maupin has filed a brief of forty-seven pages in the supreme court for the state of Colorado defendant in error in the case of T. Thatcher Graves, now under sentence of death for the murder of Mrs. Barnaby by poisoning. The counsel for plaintiff in error assigned twenty-four errors in the record but relied only upon six.

The brief says: It would be remarkable indeed if in the record of a case which was based solely upon circumstantial evidence and which consumed six weeks in trial there should not appear some things which ingenious counsel could, if for no other reason, assign as errors with some degree of plausibility. * * * The case at bar has no precedent in legal annals. It was a remarkable crime consummated by the most remarkable means. It was an original method of committing murder. The crime as charged was one which was conceived 2,500 miles from where it was consummated.

It was by means of a poisonous drug most carefully and skillfully compounded by one experienced in the science and art of chemistry. The beginning of the motive for the crime dated back some eighteen months prior to its consummation. * * * There is all through the brief for the plaintiff in error a studied attempt to convince the court that a great outrage upon justice was perpetrated by the verdict of the jury in the court below. * * * It is respectfully submitted that there was no error in the proceedings of the trial court and that its judgment ought to be affirmed. A decision is now expected soon from the court.

AN APPROPRIATION

Of Abandoned State Canal Land at Columbus, O.—Interesting Proceedings May Be Looked For.

COLUMBUS, O., July 29.—The canal commissioners made a sensational discovery Thursday, and one which it is thought may result in the clouing of a good many land titles in Columbus. They found, while searching records in another matter, that in 1833 the board of public works, under authority of a special act of the legislature appropriated the Scioto river and its banks lying within Columbus for the purpose of supplying the Columbus feeder to the Hocking canal and also for the passage of boats. In the course of time this use was in part abandoned and factories were built on the banks which had been acquired by the state and this without obtaining from the state authorities any deeds for the land so occupied. It is said that a good many large factories now occupy this state land and some highly interesting proceedings may be looked for.

Unconstitutional.

LANSING, Mich., July 29.—The supreme court has handed down opinions declaring unconstitutional the two acts of the last legislature reappointing the representative and the senatorial districts in the state. The title of the case involving the senatorial reappointment was "Theron F. Gidding vs. secretary of state" and that involving the representative redistricting, "supervisors of Houghton county vs. secretary of state." The mandamus asked for is granted in each case, and the secretary is ordered to issue notices of election in accordance with the redistricting act of 1891, the act of 1895 being held to be equally defective with that of 1891.

A Rush for Government Land. SAN FRANCISCO, July 29.—Seven hundred and fifty thousand acres of land in San Benito and Merced counties, and which, according to the act of congress of September 29, 1890, reverts to the government by reason of the failure of the Southern Pacific railroad to complete a certain portion of its line within the specified time, was thrown open to settlement under the homestead acts and a large number of filings were made at the land office in this city.

A Woman Wants to Settle the Trouble. PITTSBURGH, July 29.—Rev. She is aged 40 years and is a very pleasant-faced woman. Her work here is jointly with Rev. J. L. Andrews. She will call upon Chairman Frick with a proposition for settlement.

Atoll Out of Shape. INDEPENDENCE, Ia., July 29.—The great race between Astell and Allerton, the result of which has been worrying the brains of the talent for the past six months is practically off. C. W. Williams has received word from Budd Doble that Astell is not in condition to start and will be returned to his quarters at Terre Haute.

DUEL WITH KNIVES

Fought By Father and Son—Both Badly Wounded.

NATCHEZ, Miss., July 29.—S. M. McManus, aged 37, a respectable citizen, has a son named Charles, an idle, shiftless fellow and hard drinker. The father found work for his son. This angered the youngster and, after some slapping his father about the face and head, seeing that his son was determined to murder him, the old man drew a knife, and the bloody duel continued until the combatants could not be separated. Young McManus received three stabs in the side that penetrated the cavity, and also another horrible wound in the abdomen and about a dozen cuts or stabs. His recovery is impossible. The father was cut a number of times on the face and on the head, arms and body, and would not doubt have been killed if his son's knife had been sharp. The elder McManus was arrested. He says the affair would not have occurred if his son had not been drinking.

WHOLE FAMILY MURDERED.

The Victims a Jewish Hotel-keeper, Wife and Five Daughters.

LONDON, July 29.—A horrible murder story comes from Warsaw, Russia, the victims being a Jewish inn-keeper, living near Warsaw, and his wife and five daughters. A band of robbers entered the house in search of plunder. First they smashed in the head of one of the daughters with an ax, and then killed the parents with knives and axes. Afterward they murdered the three youngest daughters by dashing out their brains against a wall. Finally the eldest daughter was dragged from a hiding place, and, after being forced to confess where the family savings were concealed, was stabbed repeatedly in different parts of the body. Strange to say, this daughter is still alive, and able to tell the awful tale.

London Workmen Indignant.

LONDON, July 29.—A circular, couched in extreme language, has been received announcing that a meeting will be held in the east end, on Saturday, to denounce the circular says, the brutal murder of American workmen by Carnegie, the millionaire, who is now enjoying himself on an estate in Scotland, from which the tenants have been evicted, and to call attention to the cruel torture of an American soldier for expressing himself in favor of the strikers engaged in resisting a reduction of wages and the destruction of their union.

Manufacturers Want to Arbitrate. PITTSBURGH, July 29.—The joint scale committee of the Amalgamated held another conference Thursday to settle the wage question, and adjourned for two weeks. The manufacturers made a proposition that the men resume work at the old scale, leaving the present troublesome question to arbitration, subject to the voice of all the members of the association as to whether arbitration would settle it or not. The manufacturers said they were willing to wait two weeks for a reply.

Died From Suffocation.

MEDFORD, Mass., July 29.—A search for four missing children Thursday resulted in finding them in a closet under a sink in a house in process of construction, where they had crawled some time during the day. The door was either pulled by them or shut in some other way, snapping the catch and making them prisoners. Three of them, all boys, died from suffocation, and the other, a little girl, was slowly sinking. Had the discovery of their whereabouts been delayed a little longer, none of the quartette would have been alive.

Cold Wave Coming.

MINNEAPOLIS, Minn., July 29.—There was a killing frost in Montana Wednesday night, and the cold wave is coming this way. At Havre, Old Fort Assiniboine, the mercury went down to 30 degrees. The cold wave is generally over British Columbia. At Winnipeg the mercury is 42 degrees.

The Rain Maker.

LINCOLN, Neb., July 29.—A heavy rain fell here, which was greatly needed. Dr. Sunshiner, "a rain maker," will doubtless claim the credit for the showers. He signed a contract a few days ago to produce rain within four days. He was to have a price varying from \$150 to \$500 for an inch of rain.

Lightning Ignores Oil.

WASHINGTON, Pa., July 29.—During the heavy storm Thursday afternoon the lightning struck two tanks containing 40,000 barrels of oil, the oil taking fire and endangering a dozen other large tanks. The flames in one of the tanks have been smothered out, while the other is still burning furiously.
